

Toddler Bathroom Supervision Procedure - Tolland

If the ratio is under four and there are two teachers present then one adult can take an individual child to the bathroom as necessary. If there are more than 4 children present in the room, then another adult must step into the room so that the 1 to 4 ratio is met and the teacher can take the child to the bathroom.

The children must be supervised on the way to the bathroom and back. They are not allowed to walk unsupervised to or from the bathroom. The teacher taking children to the bathroom should be supervising those children **only**.
